### Cover Sheet

**Name of the Organization reporting:** Indian Institute of Science

**Dates covered by this report:** June 26, 2016 To September 30, 2016

**Principal Investigator:** Annapoorni Rangarajan

**Phone:** 080-22933263. **Email:** anu@mrdg.iisc.ernet.in

**Contact person:** Annapoorni Ranagrajan

**Phone:** 080-22933263      **Email:** anu@mrdg.iisc.ernet.in

**Mailing Address:** Dept. Of MRDG, Indian Institute of Science

**City:** Bangalore

**State:** Karnataka

**PIN:** 560012

**Project Name:** Deciphering the molecular and cytokine signatures of breast cancer risk in lean diabetics

**Amount of Grant Received:** INR 13,00,000.00      **Date of Receipt:** 28/06/2016

**Grant ID:** BUFI0001

I hereby certify that the above and attached statements are true and accurate.

Report Narrative	
Question	Response
What progress has the research team made toward achieving the results described in the project proposal during this period?	1) Initiated dialogues with Endocrinologist for collecting blood samples from diabetic and non-diabetic patients. 2) Preliminary cytokine analysis expt undertaken in IISc patient plasma samples to learn to undertake assay and analyses.
What evidence does the recipient have to demonstrate its success? If the project did not achieve its intended results, why not?	1) Collected and Isolated blood plasma samples of diabetic and non-diabetic patients. 2) Undertook preliminary cytokine analysis on patient samples 3) Initiated breast cancer tissue collection (diabetic and non-diabetic) from KMIO hospital to undertake contamination free culture in the lab to undertake stemness assays.
Have there been any significant unforeseen changes in the proposed outcome of the project since last reported?	No
Have there been any significant unforeseen changes in the team involved in the research?	No
Have there been any changes in the financial allocations towards the project since last reported? If yes, please provide the details in Financial Reporting section (Annexure II)	No
Does the team foresee challenges ahead? If yes, how is the team leader planning to address those?	Not currently
What key activities still need to be implemented?	Standardize undertaking cytokine analyses, processing primary breast cancer patient samples
